Summary: A poem about my ongoing fanfic, "The Crystal Gems... and Onyx". It's mostly about the current conflicts my OC is facing.

Dark Force

I'm trapped in a war

In a raging dark canvas

Deep in my eyes

Seen lights and crashing skies

A pitiful shadow

Attacking those I don't know

Lost, washed up and deserted

I knew she was desperate

Would break any minute

So she had to go

The tiniest dark force

Helping people unknown

They're just destroying

And I've got to keep fighting

Storms are approaching

There's nowhere to hide

If she loses focus

Or we lose to the Diamonds

We'll get thrown and we'll have to abide...

...

I sided with the Gems

And Miss Jasper was laughing

Well look at who's master!

Still... the weakest will die...

I'm the tiniest dark force

Protecting people I hold

The tiniest weapon...

Who won't be controlled...
